The Foundation of—

BUSINESS

IT has often been said that confidence is the Foundation of business, and if this is true of business in general how much more is it true of the banking business.

Our Oklahoma law-makers certainly had this thought in mind when they drafted the Guaranty Fund Banking Law—a law which has won the confidence of thousands of new depositors. This confidence is well-placed, because the funds of the depositor in a Guaranty Fund Bank are guaranteed and protected by Law.

CITY DIRECTORY

1920

With a Complete Classified Business Directory, Street Directory,
Householder and Property Owner's Guide.

Page Directory Company
Compilers and Publishers
871-873 Boonville St.
Springfield, Mo.

INTRODUCTION

This is the first edition of the Page Directory of Hugo. The Directory is the result of a "house to house" canvass, call back and checking system to insure as complete and perfect a list of residents as it is possible to obtain by careful and experienced effort.

The basic idea and real value of a City Directory lies in the completeness and reliability of this department, as everyone realizes.

The company guarantees that future editions will also be compiled in like manner as the present edition and not a copy of the old one.

The new and valuable feature of this Directory is the ownership and rental of property as a basis of credit.

Thanking all for their patronage and kindness in this undertaking, we submit the result of our labors, and hope to compile a second edition soon.

Watch for our return.

Respectfully,

THE PAGE DIRECTORY CO.,
