COMPILERS and PUBLISHERS  
Paris, Texas.

# INTRODUCTION

The T. S. Hickman Directory Service; publishers and compilers of the Hugo City Directory, presents to subscribers and the General Public, this the 1930 edition of the Hugo City Directory, which also includes a Directory of Choctaw county tax payers.

This is the first edition of the T. S. Hickman Directory of Hugo. The Directory is the result of a thorough house to house canvass, call back, and checking system to insure as complete and perfect information as is humanly possible to obtain by careful and experienced effort, and the publishers guarantee that future publications will be compiled in a like manner.

As a basis of credit we have included the ownership of property.

Thanking all for their cooperation and kindness in this undertaking, we submit the results of our labors, and hope to compile you a second edition when needed.

Respectfully,

T S HICKMAN.

## COMPILERS NOTE

The information in this Directory is gathered by an actual canvass and is compiled in a way to insure maximum accuracy. The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can or will be assumed. The publishers earnestly request the calling of their attention of any inaccuracy, that it may be corrected in the next edition of the Directory.

T. S. Hickman Directory Service, Publishers

## HUGO "THE FRIENDLY CITY"

Location—Southeast corner of Oklahoma, on the crossing of Federal Highways No. 70 and 271, and the Frisco Ry running east and west, and north and south.

Five public schools, high school with full credits and strong faculty. Business course in high school. Eleven churches. Nine miles of paved streets.

Agriculture—Hugo is the agricultural center of S. E. Oklahoma and farmers of this area are rapidly becoming adapted to a program of diversification through the efforts of the Chamber of Commerce and County Agent. Cream receipts have doubled in the past 12 months. The county has been strongly organized with a director of diversification in each of the 51 school communities in the county.

Industrial Advantages and Market—Hugo is the center of a 400-mile circle which produced last year \$200,000,000. worth of corn; \$602,000,000 worth of cotton; \$1,364,000,000 was the agricultural production in the above 400-mile circle in 1928. Mineral products in the above circle were \$521,000,000. Petroleum in the above circle was \$496,000,000. Total income from all sources in this 400-mile area last year was \$2,648,000,000.

Population in the above 400-mile circle, 7,654,474.

Fuel—Natural gas, Lone Star Gas Company. 16 cent industrial rate. Electricity, Public Service Company. Low cheap commercial power in any quantity; \$500,000.00, 4000 KW plant in Hugo. The Samuel Insull interests of Chicago have evidently recognized Southeastern Oklahoma as the coming industrial center of the Southwest, having built a veritable network of power lines from Muskogee, Oklahoma through Hugo to Shreveport, La. This all was done in the last two years at a cost running into the millions.

Labor—Abundant supply, both white and colored.

Taxes—The local Chamber of Commerce is ready to go over your tax problems with you, and the tax assessor will be very lenient with new industries for the first five years.

Transportation—Frisco railroad east and west, and north and south. Red Ball freight to Dallas and St. Louis. National Lee highway from Washington, D. C. to San Francisco. 4 hours by truck to Dallas.

Climate—Mild in winter, cool in summer. Rainfall 44 inches annually. Protected from rigorous winters on the north by the Kiamichi mountain.

Inducement—The Hugo Chamber of Commerce is prepared to offer special inducement to large industries looking for a southern location. We are ready to talk business.

HUGO CHAMBER OF COMMERCE,  
H. R. Williamson, Secretary,

DOMESTIC MAIL MATTER

42. Rates of postage on fourth-class matter—to be fully prepaid—are by the pound, according to distance or zone, a fraction of a pound being computed as a full pound, and an additional charge of 2 cents on each parcel except upon those collected on rural delivery routes. These rates, including the 2-cent additional charge, are shown in the following table and paragraph (a):

Weight In pounds	Local.	Zones.							
		1st Up to 50 miles	2nd Up to 150 miles	3rd 150 to 300 miles	4th 300 to 600 miles	5th 600 to 1000 miles	6th 1000 to 1400 miles	7th 1400 to 1800 miles	8th Over 1800 miles

70	.42	.76	.76	1.46					

(a) Parcels subject to the pound rates, mailed for delivery within the first or second zone, are, when the distance by the shortest regular mail route from the office of origin to the office of delivery is 300 miles or more, chargeable with postage at the rate of 8 cents for the first pound and 2 cents for each additional pound, a fraction of a pound being computed as a full pound. (Subparagraphs (b) and (c) par. 2, sec. 444, Postal Laws and Regulations.)

NOTE—On parcels collected on rural-delivery routes the postage will be 2 cents less than shown in the foregoing table, provided they are indorsed "Mailed on rural route" to show that they are not subject to the additional charge.

## HICKMAN'S HUGO

Directory of Householders and Business Places Including a  
Complete Street and Avenue Guide

# 1930

Copyright 1930, by T. S. Hickman Directory Service.

## STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS

The streets are arranged in alphabetical order. Intersecting streets are shown at the actual numbers where they intersect on each of the streets. House numbers are compiled in numerical order, both sides of streets, embracing odd and even numbers, including in one list representative of the entire street. Following the street numbers are shown the names of the resident, occupant or business concern. Profession or business is shown only at actual places of business; to find occupation of householders refer to the Alphabetical List of Names.
