

Ganes Installs New Ice Cream Machine

The Hugo Daily News June 7, 1935 - transcribed by Ron Henson

According to an announcement made Friday V.L. Gaines has installed a new Gebhardt Freezer for making ice cream at his establishment at 118 South Broadway.

The freezer is equipped with a double freezing chamber which insures fast freezing. It is a 10 gallon capacity machine with a three gallon freezing capacity and will freeze three gallons in ten minutes. In addition to freezing ice cream the machine is used for making frozen ices and sherbets.

A special announcement ad appears elsewhere in this issue of The News.
