

The School

The Soper Herald September 19, 1907 - transcribed by Ron Henson

The school is progressing nicely with only one teacher, Miss Wader of Madill who was employed as [unreadable] went home Friday and wrote back Monday that she would not return and for the board to secure another. This lady signed a contract to teach here eight months, and requested the board to pay her for what service she had already rendered. This the board refused to do. We are informed that a teacher has been employed from Dallas Texas, and will be here in a few days.
